Lyrics:

From dust an - gels made a man, In their shape, but made of sand.
Eve was made from A - dam's side, Then God gave her as his bride.

In his nos - trils they breathed life, But God said, "He needs a wife".
She's my wife, made from my bone" A - dam now was not a - lone.

God made A - dam, God made Eve, In God's po - wer we be - lieve.

God made A - dam, God made Eve, And God made both you and me.
