## What Happened First?

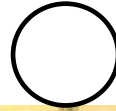

Number the circles from 1 to 5 to put the story in the right order

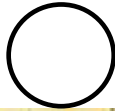

Solomon asked for a sword to be brought and have the baby cut in two, giving half to each of the women.

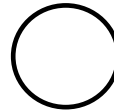

Solomon knew who the real mother was because true mothers care for their babies. He gave the baby to his real mother.

Two women came to Solomon. They both lived in the same house and both had given birth to baby boys. During the night one of the babies died.

The true mother did not want the baby killed so she pleaded with Solomon to give the baby to the other woman.

Each of the women said that the living baby belonged to them. They argued before the king.
