Naaman is Healed

Cut out the "flower" shape as one piece and fold the "pedals" inward so that the words are in.

Glue the single pentagon onto the outside of the pedal so that the writing is upright. Glue the back of the centre of the flower into the lap book.

Cut out the 4 circles and fold in half (inward). Draw leprosy on the before picture. Glue the right half of "Obey God" to the left half of "before"; right half of "before" to the left side of "dipped"; right side of "dipped" to the left side of "after". Glue the left side of "Obey God" and the Right half of "After" into the lapbook (it should complete a circle).
