

Cut out both squares. Fold the corners of the larger square inward so that the corners all meet in the middle. Fold the smaller square in half (on an angle), open and fold in half the other way on an angle. Cut the square on the fold lines to make 4 triangles. Glue the 4 triangles onto the outside, blank sides of the larger triangle. This will create the picture on the outside. Glue into the lap book. Draw faces on the men and angle, decorate the fire with tissue paper if you have it at home.

Cut out the furnaces, fold inward on the bold line. Glue the furnace with fire on the backside of the furnace with the verse. Glue the back of the puzzle side to the lap book. Art work by Sis. Karen Pillion
