

## LESSON 4 - THE BUILDERS

This parable teaches us to choose what we build our life on! God is our ROCK, and if we build our life around God and the teachings of Jesus, then when hard times come our faith will help us get through the challenging times as we know that God cares for us!

**See if you can find a rock in your backyard or local park and put it next to your bed to remind you that God is your rock. You could even write or paint "GOD" on it!**

## LESSON 5 - THE FIVE FRIENDS

The paralysed man had SUCH good friends! They were determined to help him and were not going to give up until they were able to see Jesus! They had such FAITH that Jesus would heal their friend! We also need to have friends who will help us in our lives and who believe in Jesus.

**Think of 5 "friends" who you can trust and who you can talk to about anything that you need help with. "Friends" can be your own age, or your parents, grandparents, aunts/uncles, Sunday school teachers, etc. Talk about this with someone in your family.**

## LESSON 6 - JESUS HEALS THE MAN AT THE POOL OF BETHESDA

The lame man told Jesus that he had no one to help him get into the water. Jesus was able to help the lame man, not by getting him into the water quickly, but by healing him with God's power! We don't have God's power to do miracles, but we can still help others and show that we care.

**This week, think of someone who is not well or needs cheering up and send them a card to show that you care.**
