

LESSON 10 - THE SOWER

Our theme for this year is “Growing in the grace and knowledge of our Lord Jesus Christ” – we want to be like Jesus and grow in God’s ways. We can do this by listening to God’s word and putting His ways into practice in our lives. Like the seed that landed on the good ground, we will grow into a healthy “plant”, bringing forth good “fruit”!

**As you water your seeds this week,
read your quote and think about
growing up to be like Jesus.**

LESSON 11 - JAIRUS' DAUGHTER

Jesus touched the girls hand, spoke to her and she rose from the dead! How wonderful! And how wonderful it will be when Jesus returns again and heals the sick and raises to life those who believed.

**Talk to someone in your family about
how Jesus has “touched” your life by
looking after you and caring for you.**

LESSON 12 - FEEDING THE PEOPLE

Jesus cared for the people and not only taught them when he was tired but also provided food for them. We need food to keep us alive - the word of God and the teachings of Jesus are like food too – it will make us strong in faith and help us to put our trust in God if we are filling our minds with His word!

**This week, when you thank God for your
meals, thank Him for being able to read
His word too!**
