

LESSON 25

TEACHERS IN ISRAEL

The Levites were given a very special job to do in teaching the people and helping the priests look after the tabernacle. They had to know what God required and be careful to carry out their duties. In making the tabernacle, Moses was very careful to follow God's commands. As a bible marking exercise, look up Exodus 39 and 40 and colour in all the references to "as the Lord had commanded Moses" – 18 times! We must also know what God requires of us and be diligent in doing His will.
